Eight AA guns with funnel-shaped muzzles and four other artillery pieces, which source believed to be howitzers of about 150-mm, were seen at the edge of the woods east of the cantonment. Two lieutenant colonels and one major, all wearing black-bordered red epaulets, left the cantonment. \* Soldiers were seen walking from the cantonment to the cantonment west of Kaisersteinbruch, on the south side of the road to Sommerein (P 48/X 67) and vice versa. ## SECURITY INFORMATION

during a 20-minute period of observation. Four trucks were in the park.

- 25X1A \* ~~CONFIDENTIAL~~ Comment. On 24 October 1951, only 8 AA guns were seen in the cantonment east of Kaisersteinbruch, while, on 2 October 1951, 28 AA guns had been observed. See ~~CONFIDENTIAL~~. The present report for the first time mentions 150-mm guns. Since the caliber was estimated from a large distance, it was probably misidentified and should read 122-mm. Further information is required to determine whether the artillery unit will permanently be stationed in Kaisersteinbruch. The artillery pieces may belong to the 32d Gds Arty Regt of the 13th Gds Mecz Div, the location of which is undetermined at present.
- 25X1A \*\* ~~CONFIDENTIAL~~ Comment. The information fails to specify the units quartered in the Fasanengarten Kaserne. ~~CONFIDENTIAL~~ only confirm elements of the 13th Gds Mecz Div as being quartered there.
- 25X1C
- 25X1A \*\*\* ~~CONFIDENTIAL~~ Comment. It appears that the 45th Gds Mecz Regt of the 13th Gds Mecz Div in Traiskirchen was at the post on 27 October 1951.
